

Stanley British Primary School's Financial Aid Program is an integral part of the educational program for the school and supports a continuing commitment to diversity of all kinds. Twenty-seven percent of Stanley BPS students receive aid toward tuition costs.

Stanley BPS is committed to need-based tuition assistance. Stanley BPS works with an independent financial aid vendor, Schools & Student Services, also known as SSS. Parents/guardians provide SSS with both their Parents' Financial Aid Statement (PFS) and tax return information. Stanley BPS award decisions are based solely on need and guided by the information provided in the PFS form, tax returns and the Estimated Family Contribution analysis provided by SSS. All parents who feel they need assistance in paying tuition should apply.

The Financial Aid Committee makes all financial award decisions and meets on a regular basis prior to contracts being mailed. It is necessary for the Committee to have all required materials completed and submitted to SSS in order to make awards.

ALLOCATION PRIORITIES

The priority for financial aid awards is:

- First, to currently enrolled students receiving assistance
- Second, to currently enrolled students requesting assistance for the first time
- Third, to incoming siblings of currently enrolled students
- Fourth, to new student applicants

KEY INFORMATION

Reapplication Required for Returning Families with Aid: The families who have received financial assistance in the current year and wish to continue to receive aid **must reapply each year**. If the family's ability to contribute to the student's education increases, the level of assistance will decrease. If the family's ability to pay decreases, Stanley BPS will make every effort to raise the level of assistance. However, tuition assistance never can be entirely guaranteed.

Change in Financial Situation for Returning Families Presently Not Receiving Aid: The Financial Aid Committee will do its best to meet the needs of current families who are requesting tuition support for the first time, due to a changed financial situation. To make note of this, provide any additional detail regarding the change in financial circumstances in the notes section in your PFS application.

Families New to Stanley BPS: Applications for tuition assistance for new students are considered independent of the admission process and awarded solely on the basis of need, using the family's SSS financial aid form called the Parents' Financial Statement (PFS), tax returns, and the Estimated Family Contribution analysis provided by SSS as guidelines. Should the committee require any other documents to substantiate information, the family will be notified.

SUBMISSION SPECIFICS

Divorced and Separated Parents: In the case of divorced or separated parents, the committee requests that both natural parents submit the School and Student Services PFS (Parents' Financial Statement) form. It is the responsibility of the custodial parent to ask the non-custodial parent to submit the necessary forms. Should either of the natural parents be remarried, the stepparents' financial data also will be considered. The financial responsibilities to the stepparents' children will be taken into account. The committee realizes that these can be sensitive situations and it is their intention to decide each case on its own merits, taking into account special circumstances when necessary.

Unmarried Partners: Unmarried partners raising a child together both need to submit information on the School and Student Services PFS (Parents' Financial Statement) form and their individual tax returns for the required years.

Employment Considerations: The Financial Aid Committee expects families applying for assistance to demonstrate a reasonable effort to secure personal resources to provide for their child's education at Stanley. It is up to the committee's discretion to include a minimum "other parent income" if one parent chooses to be unemployed when analyzing the family's ability to pay. For all families, providing for an independent school education must be a priority within individual budgets.

Present and Expected Income: The Financial Aid Committee will take into account a family's entire financial picture, including expected income for the year in which tuition assistance will be given. Overtime and non-guaranteed income will be considered when determining the family's ability to pay.

Confidentiality: All records and correspondence are held in the strictest confidence. The only people who have access to the financial aid files are Head of School, Director of Finance and Operations, Director of Admission, and members of the Financial Aid Committee.

Unpaid Current Tuition: Financial aid can **only** be awarded to returning students if their tuition and program fees for the current year are paid to date. Unpaid tuition and other fees jeopardize financial aid applications.
